ABOUT US

MOHAMED & ALI, SALEH ALSEHLY sons has always stood for excellence in all the business areas and operations. The AL-SEHLY Group of companies, headquartered in Al-Mubarraz started its Operations in the year 1974.

The ALSEHLY company is certified with ISO 9001:2015 as a mark of its continues commitment to quality. The company holds very strong principles and guiding values for the customer, adhering to the corporate governance and generating win-win situations for all.

MOHAMED & ALI , SALEH ALSEHLY sons own and operate an various fields including trading, manufacturing, marketing with help of modern technology we used to manufacturing high quality products like polyvinyl chloride pipes (PVC) and fittings, chlorinated polyvinyl chloride Pipes (CPVC) and polypropylene random copolymer (PPR) pipe and fitting. ALSEHLY trading company provide customer with high range of electrical and plumbing items and several industrial equipment , computer trading and all the offered products are used in various industries and are manufactured under the expert guidance of our skilled engineers.

These offered products are quality checked on the industry norms and standards to ensure high grade quality to our customers.

We believe in updating our technology from time to time and thus we keep on providing timely training sessions to our professionals to update them with the latest technology. Understanding the requirements of the customers, we have been providing our products at very nominal prices to achieve satisfaction and trust from our esteemed clients. In order to grow more in the industry, all our employs work as a team with vision of qualitative production moreover, we ensure timely fulfillment of customers' demands with help of a trained team of people who are involved in delivering the products in least possible time .in order to provide a faultless delivery, we are using best quality packing to prevent them from any damage.

Vision

To provide the best piping and fitting solutions while continually to the Saudi Arabia economy and building related to construction materials

Our Mission

To always look ahead and plan how our organization might best meet the customer needs of the future update.

ABOUT THE PRODUCTS:-

We are manufacture in Alsehly Plastic Factory (SPF) our products of high quality plastic pipes various sizes according to the inch sizes with ASTM specification ranging from pvc pipe are 2 inches to 6 inches and cpvc pipe ½ inches to 2 inches used in drinking water connections ,sanitation connection and electricity works in line with requirements of the Saudi arabia.

TIPS OF INSTALLATION OF PIPE AND FITTING:-

1. Cut the pipe with handsaw, then deburr the inside of pipe to remove any roughness.
2. Dry assemble the pipe and fitting.
3. Use felt-tip marker to draw positioning lines across pipe and fittings.
4. Clean pipe end and inside of fitting with pvc primer

Bradford White International Product Selection Guide

Complete Line of Residential and Commercial Water Heaters, Boilers, and Tanks

Built to be the Best

HEATMATE

WATER HEATER / سخانات المياه

*Specifications:

- ✔ Complies with Saudi and international specifications
- ✔ The inner cylinder is covered with Porcelain, Sustainability material prevents the formation of rust inside the heater.
- ✔ High - Quality thermostat: Water temperature regular disconnects the electricity from the heater Ensures that you get hot water all the time.
- ✔ It contains a safety valve
- ✔ The heater is available both vertically and horizontally
